REPORT OF YOUR FOREST FIRE WARDEN

Howdy Folks. This is your friend smokey the fire prevention bear talking for C. Tracy Willey your local forest fire warden. You know how he is always asking you people to take it easy with fire in the woods? Well, he wants you to know that forest fires decreased last year. He knows it did rain some but it was the help of all you people who are giving their time and money and carefulness to prevent this shameful waste of our woodlands. But please remember this, folks, forest fires still do a lot of damage each year. And we got to work and work to whittle them down to our size. So when you're around forest areas, crush out your cigarette, hold your match till it's cold, drown your campfire and drown it again. If you have to burn grass or brush or rubbish, ask about the law first, also get your permit from your warden and last, have plenty of help handy. Please remember a permit is required for all open fires whether in an incinerator or on a piece of plowed ground. Your local forest fire warden will help you in your burning problem and he is as close as your telephone. Please call him.

Each year forest fires destroy enough sawtimber to build all the homes in a city of one-half million people.

Each year forest fires eat up enough sawtimber to make ties for 50,000 miles of railroad tracks.

Each year forest fires destroy enough pulp-size trees to provide a 12 months supply of newsprint for every newspaper in the United States.

REMEBER ONLY YOU CAN PREVENT FOREST FIRES

Number of fires — 1. Number of acres burned — 3. Number of permits issued 4.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Brookfield:

During the school year 1953-54 Mrs. Eugenia Hutchins continued as teacher of the Churchill School for the second year. It is fortunate that we have a teachers' college graduate with some years of experience within commuting distance of the school, and one who has such a sincere interest in the welfare of the pupils.

Mrs. Rebecca Sanborn, R. N., continued her valuable service as school nurse. Both Mrs. Hutchins and Mrs. Sanborn are continuing their work in the Churchill School during the current year.

In my opinion the Mothers' Club deserves a medal for distinguished service. Few organizations have such a long and continuous record of persistent effort as has this group in sponsoring and providing materially for the school lunch program. Federal reimbursement of \$88.13 and about \$60.00 worth of surplus foods were received. The district appropriation was of great assistance.

It is impossible to measure the value of this service, but authorities in the field of child growth and development have made plain the importance of warm, nourishing, and balanced meals in the formative, early childhood years. The foundation laid during this period may well determine to a large degree the kind of adult the child becomes. Brookfield can justly be proud that this service is available to all the children in its school.

During the past year the exterior of the school building was painted. This, with the interior painting done a short time before puts the building now in good condition.

The excellent dental service program initiated by Mrs. Eva Willey has been continued. In an area where the incidence of dental cares is one of the highest in the country, such a service is outstanding and of exceptional value in its contribution to the health of the pupils. Those responsible for this deserve commendation and encouragement.

Two high school pupils were enrolled at Nute High School during the past year. During the current year there are two pupils at Brewster Academy and one at Nute High School. The current tuition rate is \$275.00 at Brewster Academy and \$250.00

at Nute High School. Costs of education throughout the country are increasing and these tuition rates may be expected to increase in the future, though perhaps not as rapidly as during the past five years.

This increase in the cost of education is true also of elementary schools. In addition to the effect of inflation, the very inadequate supply of teachers and increasing number of pupils has brought about a condition wherein the costs of school have exceeded, in many instances, the costs of town government operations.

Teacher supply is critical. National sources have reported, for the current year, a need of 170,000 teachers and only 35,000 graduates coming out of college prepared to teach. This national situation is reflected in the need and supply ratio in New Hampshire. Competent young men and women should be urged to enter the teaching profession.

The fine cooperation of school board, teacher, nurse, pupils, and citizens is gratefully acknowledged.

Respectfully submitted,

EVERETT H. BRASIER

Superintendent of Schools
